*Welcome to the NZVNA Accredited Veterinary Nurse Programme*

This Scheme has been developed by the New Zealand Veterinary Nursing Association to meet the requirements of New Zealand veterinary nurses who wish to maintain their professional currency, to increase their knowledge and skill levels, and to gain recognition for that work.

Points can be accrued toward this programme in a variety of ways, including via quizzes provided by this webpage. Anybody may participate in these quizzes, but you must be an enrolled member of NZVNA Accredited Veterinary Nurse Programme for these points to count toward your total.

**About the Quizzes**

Quizzes will be put up monthly on or around the first of the month. To ensure that quizzes are allocated to your CPD record, you must be logged in under your vetscholar user account to complete the quiz. If you do not have a user account, click here to set one up.

*Anybody can participate in the quizzes, so feel free to create a user account to give it a go!*

**Welcome to the NZVNA CPD Scheme for 2011. (Next year the name will change to the Accredited Veterinary Nurse Programme)**
